We have a decimal column and we write a double value. However when saving this in the database, it saves the value as a float. We need it as a decimal. Can it be done? We cannot use any parameters to save it this way (we are writing sql). My joq code looks like this: input.unpivot(new select(sample, sample.column.name as "name", sample.column.type as "type")); input.select("**").from(sample).orderBy(input.desc(sample.column.name),
